about the creator & dubu!

Tofu, commonly known as "dubu," is my 1 year old rescue from South Korea. He is an energetic, fetch fanatic who is also super lazy and too smart for his own good! As any dog mother, keeping my pet happy and healthy is a priority. Dubu and I love meeting new furry friends, but it can be difficult to ensure that we are socializing with the right play pals. By keeping us dog-parents connected, **Woof!** aims to provide a safer environment in which the dog community can connect, meet pals, create and share memories!

Woof!
